On bended knees about an hour, For grace to spend aright the day, Who knows his neighbor has no flour I'd rather see him go to mill
And buy the luckless brother bread, And see his children eat their fill,

And laugh beneath their humble shed.

I do not like to hear him pray, "Let b'essings on the widow be!" Who never seeks her home to say,
"It want o ertakes you come to me." I hate the prayer so loud and long, That's offered for the orphan's wea', By tim who sees him crushed by wrong, And only with the lips doth feel.

I do not like to hear her pray With jeweled ear and silken dress, Whose washerwoman toils all day, And then is asked "to work for less." Such pious shavers I despise. With folded hands and face demure, They lift to Heaven their "angel eyes, And steal the earnings of the poor.

I do not like such soulless prayers: If wrong I hope to be forgiven; No angel's wing them upward bears-They're lost a million miles from Heaven. I cannot like long prayers to hear, And studied, from the lips depart; Our Fasher bends a ready ear, Let words be low-He hears the heart.

PUBLISHED WEEKLY, BY C. R. PATTISON.

"To let our readers know the source of se much foul-mouthed venom, suffice it to say that the Commercial is edited by the Reverend war, in the great conflicts of the war. Charles R. Pattison, a Baptist Minister-for the sake of our many Baptist friends, we trust of the "hard shell persuasion" That Mr PATTISON is what he professes, both a patriot and a christian, may be: but that he is a crack-brained fanatic is the flore certain."-Ann Arbor Argus.

Argus quotes a portion of our editorial of ately in front of the sleeping car ran Feb. 24th, and for a wonder his wrath was off the track, dragging with it the latstirred within him. He allowed himself to ter, and thus the train went on about be betrayed into the very sin he has taken 18 rods, when it passed over a bridge occasion to accuse us of committing, pitching into the Editor instead of his paper. Well! friend Pond-we ask your pardon, Elihu B. Pond, Esq., we shall take no offense.

Never having had a virtual Presidential traitor in your party to the party you don't know just how such an occurrence would affect you. You have had traitors in your party to the country, and you did not scold them very hard; and many of them judging from their acts are unrepentant traitors still, and yet you seem willing to hold on to them and hold them in full fellowship.

We oppose the return of the Democratic traitors, until they shall have made full restitution for the past-do deeds meet for repentance by manly acts of justice toward those whom they have for generations oppressed, and whom we have sacredly promised to protect-until they shall give ample guaranties and show forth by acts toward the Union loyalists white and black, that they are, like the prodigal son, fit to be received back into the paternal Union mansion. The very moment we have full evidence that such is the case we shall gladly and cordially welcome them. We leave it for our readers to decide, which is a "crack-brained fanatic." Elihu B. Pond, Esq., upholds the President in usurping the powers of Congress-in doing the very thing, for which the copperhead press was so vigorously down on Abraham Lincoln. On of communication with the engineer. this point which is a "crack-brained fanatic?" Elihu B. Pond, Esq., says: "Reverend Charles R. Pattison, a Baptist Minister."-Does this fact make him any the less a man or a citizen?

We beg leave to inform Elihu B. Pond, Esq., that as concerns the re-construction of rebel States upon a basis firm and sure, and in the President's speech, conduct just and right to the South and to the North, to the white and to the black, to the rebel and to the loyalist, we trust we belong to the "hard shell persuasion." We shall sustain a "hard shell" Congress, and we believe results will show a "hard shell" majority of the American people to keep the ex-rebel an eye witness: States out of full fellowship in the Union and of further mischief to the country by a copartnership with the Democratic party until out of Congress.

DON'T BELIEVE IT.

We don't believe that any party in this country can permanently succeed that denies the rights of man, that would crush because of color a portion of the men of this country. American liberty is growing stronger than any American party. Political equality is now no longer proclaimed by a few voices in the wilderness. The finest minds, the warmest hearts, the stoutest wills in this nation are marshaling for the rights of man. This is the party of the future. Its spirit is progress. Its creed is justice. It is bound to elect the next President. It blazons upon its banners those words dear to every American citizen justice, liberty, equal rights for all men. "The slave, a man; the man a citizen; the citizen a voter.'

RIGHT IS RIGHT.

It is right to do justly by all God's creatures. For the American people to de injustice to that portion of themselves whom God has chosen to make black is cruelly wicked. We don't ask the enfranchisement of the blacks for the blacks sake only, but because Justice is the highest and most precious interest of every human being .-If we would have peace, security, order, prosperity, we must be just to the negro. He is either a man or a brute. If he is a brute, every judge or juror who has ever convicted him of, or sentenced him for crime has outraged justice and insulted the God of justice .-If he is a man let him be treated as a man; give him the rights of a man.

WE ACCEPT THE CHALLENGE.—The threat of the President to crush agitation at the North, as rebellion has been crushed at the South, is a challenge that the North cannot refuse to accept, for the salvation of the Union and the supremacy of Northern principles are bound up in the issue. During the war Grant led the North and Lee the South. To-day Congress leads the North, and Andrew Johnson the South, mind is made up.

"THE principle is firmly fixed in the minds of the American people that there should be no taxation without representation .- President's Veto Mess.

Aye, aye, Mr. President. Just so. But you would tax and deny representation to 4,000,000 of people.

Adhere to this policy and you will find that this firmly fixed principle of justice "no taxation without represenand find you wanting.

The concurrent resolution not to admit Southern members until Congress so decides has passed the Senate, 29 to 18. -Matters have very much tempered down in Washington. Sumner and Stevens so ruthlessly assailed themselves magnanimously. They commend themselves to the judgment of all true men. - A party discovered a giant of magnificent proportions in a cave near St. Joseph, Missouri. Says

"On one side was a raised platform of pure white marble, extending the entire length of the room; and on this the day of doom, unless they shall yield to the righteous requirements of loyalists in and form of gigantic size, and in excellent lishment occupies a building three stories in lishment occupies a building three stories in lishment occupies a building back 200 feet, was thirty eight feet six inches .it was immense, they should imagine about six feet. Two of the teeth were out to all parts of the world. They go among town, and I have seen. They are now on the counter of the Pacific Hotel, for general inspection. One of them, is ten inches in circumference, and the other six inches."

> The Portrait of President Lincoln was hissed at a tableaux in Washington, and on the same occasion a portrait of McClellan was cheered. Of course by the supporters of President Johnson. -Thad. Stevens says he shall vote for the admission of the Tennessee delegation, otherwise the country might think that the happy relations between him and the President had been disturbed. -The charter elections throughout the State have gone mainly and largely Republican. -The Fenian excitement is on the increase. Over 100,000 met in James Woods, N. Y. city last Sabbath, and took Irish bonds to a large amount, right in the teeth of opposition from the President.

"Secretary Seward announces that everything will be right in 'ninety days.' As the World says:

"Everything is lovely, And the goose hangs high."

FREEDMEN'S BILL.—The President gives the expense of the Freedmen's Bureau Bill as a reason for vetoing it. It is an actual fact that the imperfect one that we now have has saved the Government millions of dollars. It is not as the President charges to feed and clothe 4,000,000 of people, but only to find employment for the ignorant and destitute, which are few in comparison to the great number. Gen. Howard shows that white refugees have received the care of the Government as well as blacks. The past year 90,000 blacks and 47,000 whites have been cared for.

THE SEWING MACHINE

Read the following and be convinced. Among the greatest revolutions of modern times must be ranked that which has been ef-fected in domestic affairs by the Sewing Machine. If the steam-engine nearly dovble the sum of human life, and multiplied a thousandfold the power of mankind, so, also, has this great labor-saving invention. How clearly was its efficiency manifested during the gigantic war just ended! How could the millions of men who were sent into the field ever have peen promptly supplied with outfits without the tireless, lightning-like fingers of this little

Few who are not traveling evtensively through the country are aware how universally this machine has taken the place of the old wearis ome needle. Perhaps an idea of the extent of this substitution can be no better obtain ed than by a glance at the magnitude of some of the manufacturers. Of the number of the rival establishments, let us take one of the leadi g ones for an example. At the Grover & Baker factory, in Boston, the machinery for turning out the instruments, stands, and cabinets requires nearly five hundred men to work nets requires nearly five hundred men to work it. The company conduct twenty-four sales establishments, in their own name, in differen parts of the United States, and in London and Liverpool, England, and in Melbourne, Australia. They have, moreover, agencies established in all the principal cities of the Old World, and in most even village of the New York will be principal cities. World, and in most every village of the New

Now, remember that though the Grover & Baker Company is the leading one, there are dozen others approximating more or less nearly to it in extent of operations, and if we combine them all in our calculation, we may ob tain some idea of the astonishing magnitude of the Sewing Machine business.

But a still more important aspect of the case is the beneficient mission it is performing in the myriad homes of cur own and other lands. Lightening the cares of the houshold, taking upon itself the burden of the most exhaustive drudgery, it comes like a very angel of mercy into the domestic article shedding sunshine and happines around it.

He closed by reciting some beautiful lines. We wish we had them before us. We can only from memory give the sentiment. I shot an arrow and it fell to the ground-I knew not where. I sung a song and it was breathed out into the balmy air. I went out and found the arrow in the oak; but the song I found in the heart of a friend. The music was as it always is, "softly, sweetly," conducted by F. H. Pease, Mr. Donaldson now ex-President of the Normal Lyceum, in a few appropriate remarks bade farewell to Presidential honors, and introduced his successor, Mr. Plowman, who made his introductory speech and dismissed the audience politely bidding them good night.

"An English gentleman, formerly connected with the British Army, and who styles himself the 'English Botanic Physician,' has of late gained an extensive reputation here by his skill in curing all manner of complaints. Some of his patients I have conversed with, and they pronounce his remedies and mode of treatment as very superior. Some have been restored as if by magic. The medicine he used is distilled by himself from various herbs nessessing rare curative properties. medicine he used is distilled by himself from various herbs possessing rare curative properties.

"While acting in the army he devoted his leisure moments to a thorough study of the effects produced by certain medicinal roots and herbs on all manner of diseases. It seems he has found a sure and speedy remedy for all the 'ills that flesh is heir to'. His practice is already extensive, and is daily increasing. In the complaints to which females are subjected he has no equal, as a large number here have testified that they owe not colly their present good health, but their lives, to the

GOOD NEWS FOR SINGLE MEN CONTEMPLATING MARKLAGE. Hear what the Baltimore correspondent of the Oddfellow, Boonsboro, Maryland, said on Thursday, the 31st of May, 1860:

"Numerous cures of diseases caused by early indiscretion having been performed by the English Botanic Physician, I feel it my duty, having as knowledge of them, to state the fact, believing that in doing so I may do a service to the suffering. One case in particular—that of a young man in this city—is worthy of note. He had become the victim of a habit, the mere allusion to which causes a shudder, and after years of suffering and doctoring gave up all hopes of recovery. He wished to marry, and was dearly beloved by as sweet a girl as ever lisped words of affection, but he was fearful, nervous, and prostrated. He dared not wed on account of the shattered state of his system. He sought relief at the hands of the Botanic Physician, and, astonishing as it may seem, all the bloom and vigor of youth has returned, and he now the happy father of a pair of bright boys."

Any who are suffering, no matter what their complaint, can call on the Botanic Physician confidentially. They may rely upon relief. His office is at.
